DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed February 3, 2003 have been fully considered and are found not to be persuasive.

Applicant has argued that support exist for the phrase "and at least one non-chelating ligand". Applicant points to places in the specification where catalysts comprising non-chelating ligands are described. These catalysts do comprise non-chelating ligands. However, this does not support the introduction of the broad phrase "and at least one non-chelating ligand". The phrase "and at least one non-chelating ligand" was not described at the time of filing this application. Equivalent language, not present in the originally filled application, is allowed to be amended into the claims. No equivalent language exists in the instant application for this phrase. The existence of named catalysts does not support the broad phrase "and at least one non-chelating ligand". This phrase reads on other catalysts not disclosed in specification. It is even broader than that. The phrase reads on using multiple non-chelating ligands (note "at least"...). The use of multiple non-chelating ligands is clearly not supported by the specification. The rejection is being maintained.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1, 3-5 and 8-35 rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hartwig et al (US 6,057,456). For reasons

see previous office action. Since no support for the amendment exist the previous rejection remains valid.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
